### > Groshield® Landscape

**The effective, environmentally friendly solution for weed control.**

- Reduces weed growth eliminating the need for chemical pesticides and helps maintain a clean growing environment
- Excellent air and liquid permeability allows passage of nutrients encouraging plants to thrive
- High strength and durability provides increased resistance to tearing and puncturing

Available in both 50 and 70g/m<sup>2</sup>, this strong, durable fabric can be used in both agricultural and landscaping locations:

- 50g/m<sup>2</sup> - Suitable for commercial landscaping and in gardens under soil or mulch, gravel and footpaths, patios, paving and decking.
- 70g/m<sup>2</sup> - Preferred where increased durability is required by landscaping contractors and fresh produce growers, in glasshouses, nurseries and more heavily trafficked areas such as vineyards and orchards.

**Standard Roll Widths: 1.2m, 1.6m, 3.2m**  
**Standard Roll Lengths: 500m, 750m, 1000m**
