

TEMPORARY FLOORCOVERING

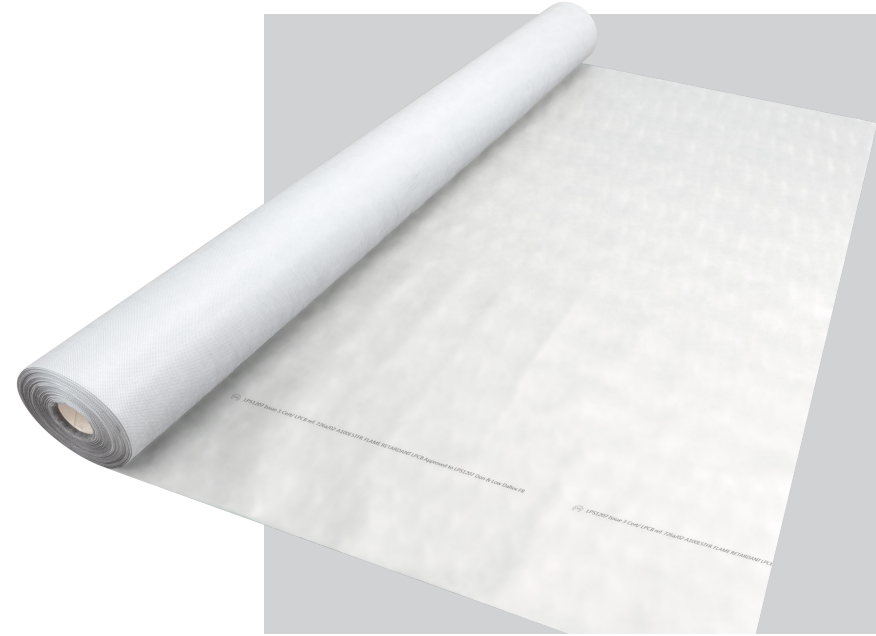

Flame Retardant Spunbond

During internal works and renovations, it's essential to protect any existing carpets and flooring from accidental damage. Loosely laid around the work area, FloorTX® FR is a single layer, nonwoven spunbond with an added flame retardant treatment that is used in protective flooring, furniture and bedding (non-visible). This product is also a long-lasting, durable treatment.

FloorTX® FR inhibits and resists the spread of fire.

100g/m2, E5 colour
