

## Plain Weave

### Technical Datasheet

Lobrene® plain weave products are strong and durable polypropylene fabrics that are ideal for use in the construction of floorcoverings, underlays, scrims, laminate substrates, reinforcement, ground covers, and composite hoses.

Versatile, cost effective and recyclable, Lobrene® fabrics can easily be incorporated into a variety of membranes and can create a good bond between other materials.

At Don & Low, our flexibility allows us to produce materials with UV resistance, flame retardancy and different colours. Lobrene® fabrics are also available in a range of roll widths and lengths to suit specific customer requirements.
